EDUCATION

Jiwaji University   Gwalior India
Bachelor of Science, in Computer Science   *Aug. 2023 – Expected May 2026*

Govt Ex Higher Secondary School   Ater India
High School/Secondary Certificate Programs   *June. 2019 – May 2023*

EXPERIENCE

Oasis InFobyte   March 2024 – March 2024
Full Stack Developer

- Implemented **RESTful APIs** and utilized state management libraries like **Redux** to build scalable and responsive web applications, demonstrating proficiency in both **frontend** and **backend** development within the MERN stack
- Learned how to translate **design concepts** into functional features, improving my ability to create user-friendly interfaces and backend functionalities.
- Developed strong **problem-solving skills** by identifying and fixing **bugs in code**, improving the performance and reliability of web applications.

PROJECTS

EzBilling | *Next.js,* **TypeScript***, Tailwind CSS, MongoDB, Shadcn UI, Next Auth* ——— **Link**

- Developed EzBilling, a user-friendly web application with an intuitive interface that facilitates easy navigation and feature utilization, eliminating the need for extensive training.
- Managed a centralized client database within the application, ensuring efficient organization and accessibility of contact details and billing information.
- Implemented features allowing users to send **bills directly to clients via email** from within the application, along with one-click print functionality.

Ek Chai Pilade | *Next.js,* **TypeScript***, Tailwind CSS,* **Zustand***, Shadcn UI, Next Auth, Docker* ——— **Link**

- Developed personalized user profiles with bios and social links, fostering creator-supporter interaction and effectively showcasing work.
- Implemented a system allowing supporters to **easily purchase chai for creators**, providing sustained support.
- Enabled chai purchases through **UPI** by scanning a **QR code** and making payments via payment gateways like **Paytm**, **PhonePe**, or Google Pay.

Motion | *Next.js, TypeScript, Tailwind CSS,* **convex***, Zustand, Clerk,* **Vercel** ——— **Link**

- Motion is a Notion-inspired productivity application designed to streamline workspace organization and collaboration for diverse user needs.
- Implemented a feature allowing users to create **custom documents** within "Motion" and securely share them with friends, enabling view-only access to shared notes for added **privacy and control**.
- Implemented features allowing users to **delete documents** and enabling easy login through **Clerk**.

TECHNICAL SKILLS

Languages: C ,C++, JavaScript, ,Typescript
Frameworks: React Js, React Native, Node.js, Express Js , Next js,
Developer Tools: Github, Docker, , VS Code, Android Studio ,Figma,Postman
Other:GraphQL ,Tailwind Css ,Shadcn Ui, Expo,
